

Overview

This release introduces improved Audit options, giving users greater flexibility when conducting full or partial Audits.

Enhancements

- Audit:**
 - Adjust Partial Quantities for Multi-Dose Vial (MDV) Products: Users can Audit partial quantities of MDV products, as long as the adjustment does not exceed the available inventory. The adjusted quantity is displayed in the *Adjusted* tab, the remaining quantity in the *Confirmed* tab, and "Undo Adjust" returns the full quantity to the *Remaining* tab.

KENALOG-40 40 MG/ML VIAL

(triamcinolone acetoneide 40 mg/mL suspension for injection)
